# Filippo Grazioli

Hildastraße 19A, 69115 Heidelberg, Germany **J** +49 0163 171 4215 ■ sendtofilippo@gmail.com

Google Scholar

#### Education

## RWTH Aachen University

Erasmus+ EU International Exchange Program

September 2015 – October 2016 Aachen, Germany

#### Polytechnic University of Turin

Master of Science (cum laude) in Automotive Engineering

October 2014 - March 2017 Turin, Italy

### University of Ferrara

Bachelor of Science (cum laude) in Mechanical Engineering

September 2011 - October 2014

Ferrara, Italy

# Experience

# **NEC Laboratories Europe**

July 2020 - present

Research Engineer - Machine Learning

Heidelberg, Germany

- Machine learning for precision immuno-oncology, personalized cancer vaccines and drug discovery.
- Prediction of protein binding with Transformers and 1D CNNs.
- Multimodal learning for disease prediction.
- Digital twins and probabilistic simulations for vaccine optimization.
- Graph neural networks and knowledge graphs embedding methods.

#### Bosch Engineering

July 2018 - July 2020

Software Engineer - Camera Perception

Abstatt, Germany

Maranello, Italy

- Embedded C++ perception algorithms for the Bosch Multi Purpose Camera for ADAS and autonomous driving.
- Road sign recognition.
- ROS prototype development.

Visiting Researcher - Computer Vision

Ferrari

October 2017 - June 2018

• Computer vision for driver monitoring with depth and RGB images.

• Depth estimation with GANs from monocular RGB images. • Multimodal face verification from RGB and depth.

### RWTH Aachen University

June 2016 – September 2017

Graduate Research Assistant - Software Engineering (May 2017 - September 2017)

Aachen, Germany

• Model-based software engineering (UML/SysML) for automotive research.

Student Research Assistant - Institute of Automotive Engineering (IKA) (June 2017 - April 2017)

- Eye-tracking and driver behaviour understanding for autonomous driving.
  - Master thesis: Development of a Driver State Detector for Autonomous Vehicles.

#### Selected Publications

Microbiome-based disease prediction with multimodal variational information bottlenecks, F Grazioli, R Siarheyeu, I Alqassem, A Henschel, G Pileggi, A Meiser, PLOS Computational Biology, 2022

Face Verification from Depth using Privileged Information, G Borghi, S Pini, F Grazioli, R Vezzani, R Cucchiara, The British Machine Vision Conference (BMVC), 2018

Learning to Generate Facial Depth Maps, S Pini, F Grazioli, G Borghi, R Vezzani, R Cucchiara, International Conference on 3D Vision (3DV), 2018

#### **Technical Skills**

Computer vision: Multimodal learning from depth and RGB images, object detection, segmentation, point clouds Machine learning: Deep learning, geometric deep learning, graph convolutional networks, variational inference, information better the problem of the pro

information bottleneck, multimodal learning, deep sets, transformers, out-of-distribution detection

Relevant libraries: PyTorch, PyTorch Geometric, DGL, Tensorflow/Keras, Transformers, Scikit-learn, ROS, OpenCV

Languages: Python, C, C++

Software development: Docker, Git, Scrum, Jira, GitLab, Continuous Integration

# Languages

Italian: Mother tongue English: Fluent German: Fluent Spanish: Basic

#### Interests

Favourite movie directors: David Lynch, Martin Scorsese Favourite writers: Jorge Luis Borges, Gabriel García Márquez Hobbies: Photography, swimming, playing guitar, cooking, gardening
